FOREWORD

The Class of Nineteen Sixty-Two faces a world of unbalance and change. We have spent our lives in period of cold war; world-crises and the threat of nuclear holocaust have seemed common-place. Yet, we hold the key to a more promising future. The knowledge we have attained in our high school years, coupled with the fresh outlook and the tireless energy of youth, can create the type of world we have all longed for, a world which we have never known.

These three years in New Brunswick High School will forever be remembered as the first great step in our quest for a better life. Here we have learned the skills to make us self-sufficient, here we have begun lasting friendships, and here we have formulated our individual futures. Still more important, however, is the realization that from the companionships and during the experiences of three short years, we have matured into young men and women, good workers, loyal citizens, fine leaders.

In our yearbook is the record of a portion of our lives. Each page, each photograph, each word is both a link with the past and a key to the future. Here is written our purpose for all to see. With this book as a solemn reminder, we can never lose sight of our goals.

DEDICATION

*Good Luck Theresa
Mr. Brown*

You are a truly dedicated teacher, who does not
measure his gift of service;
You accept youth on its own terms, with sympathy
and understanding;
You make us laugh, as well as learn;
You care about us as individuals;
Your enthusiasm makes learning an adventure,
and every project an exciting challenge;
Because we appreciate these qualities, we dedicate
this book, with gratitude and affection, to you,

FRED BROWN

A Tribute To Miss "K"

The Class of 1962 gratefully expresses its appreciation to you for your ever-present devotion which has helped to make our senior year so successful. Your ideals and your industrious personality shall serve as examples after which we shall try to pattern our own lives. Thank you again. We know future classes will, also, find you sincerely helpful

"The Class of 1962" will be the title given this June to millions of young men and women graduating from the secondary schools of America. Some will go on to areas of higher education; others will seek fame and fortune in various fields of endeavor. Still others will drift along trying to find that elusive formula leading to what they think is success.

We have tried, as teachers of our youth, to meet the philosophy and objectives of modern education, the purpose of which is to prepare men and women to live, to think, to understand, to be happier and better citizens of the state. In an atmosphere of fair-play, of justice and respect for fellow-men, we have striven to develop the talents you will find necessary to reach the goals most men seek. The spirit of this "year of the man in space" embodies an enthusiasm for new ideas, new thoughts, new frontiers. The count down is completed; all signals are "go" and the key word is "enthusiasm." Throughout the centuries the victorious achievements of man have been the result of this vital emotion. We pray that we have done our job of teaching well enough for all of you to reach the goals you seek and especially that you have received and will retain and continue to use that priceless ingredient of achievement - enthusiasm.

To the class of Nineteen Hundred and Sixty-Two, the Faculty of New Brunswick High School and I extend our sincerest congratulations and best wishes for success and happiness.

SCHOOL SONG

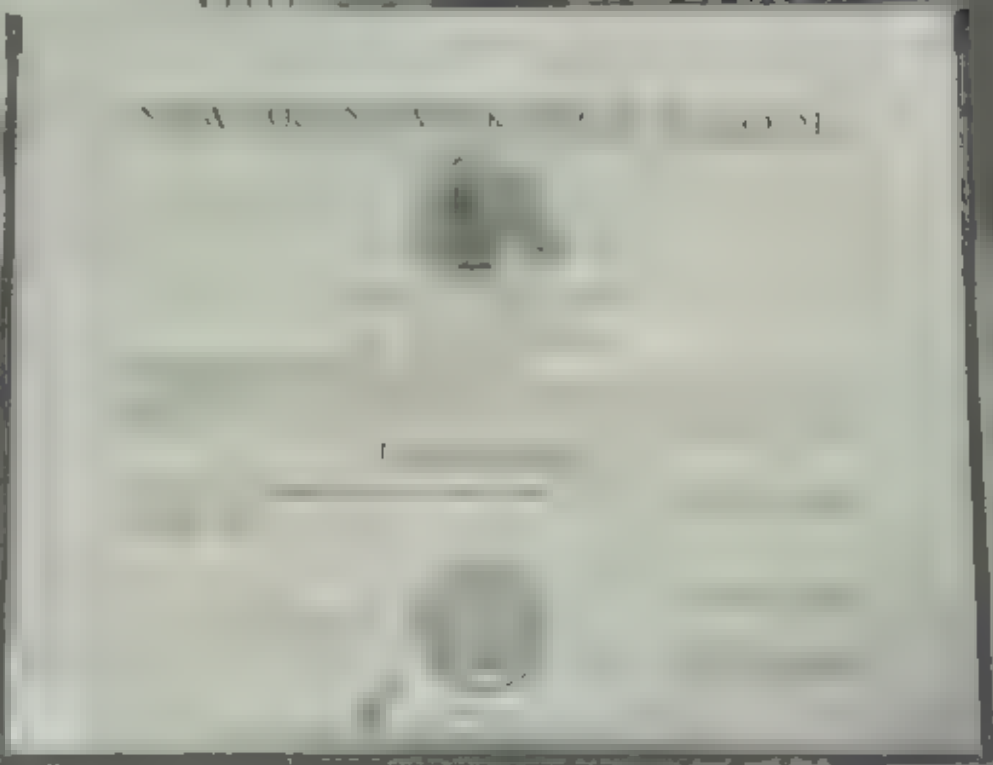

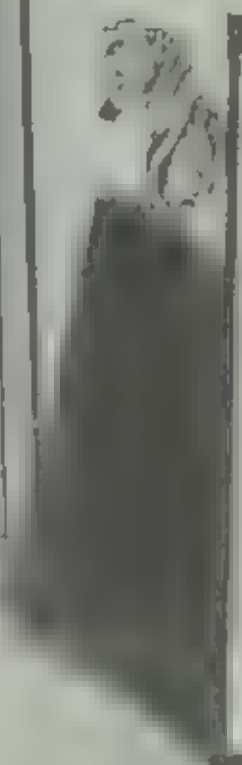

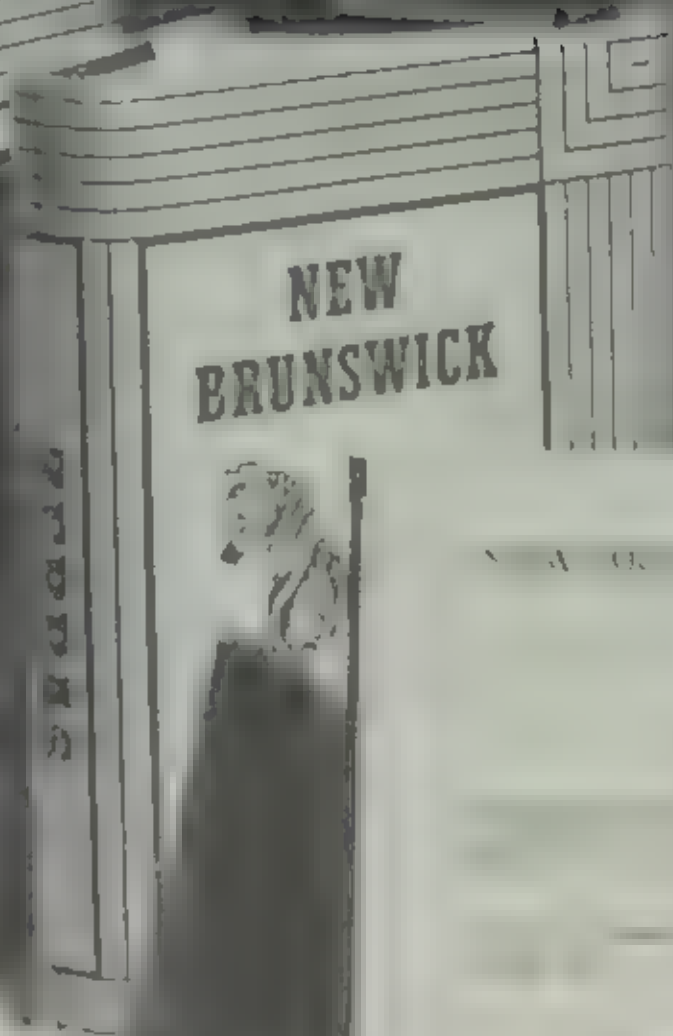

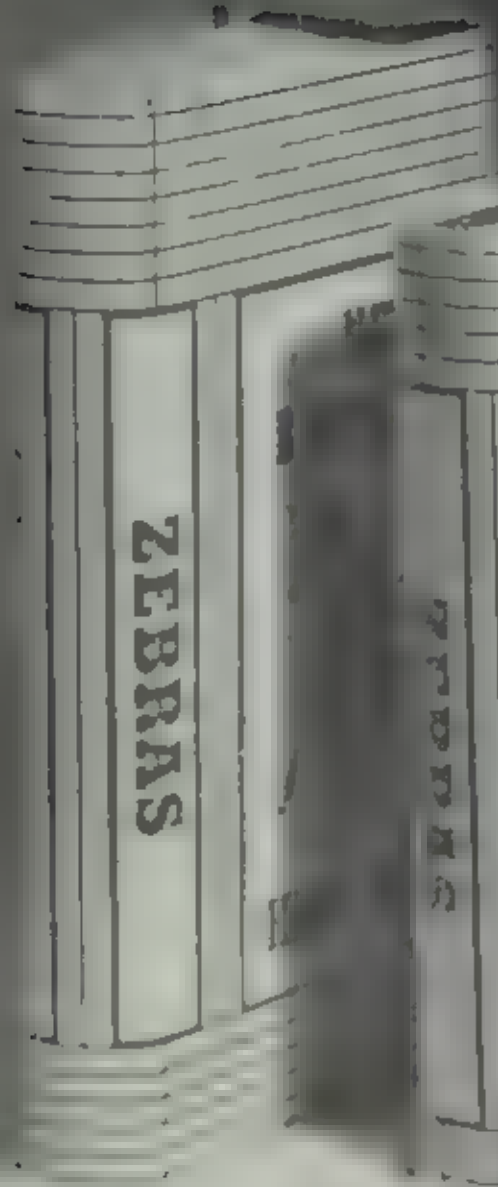

Hail to dear old High School,
Noble and grand,
To thee as staunch and loyal sons
We stand forever forging forward,
Singing loud our praises,
And in the fight
We will be faithful to the Blue and White.

Honor, Love and Loyalty,
These three in one,
Bind us together,
Students of the grandest school beneath the sun,
When our course is over
With tear-dimmed eyes
We will salute thee,
New Brunswick High.

HAIL ALMA MATER

Hail Alma Mater
Hats off to you
Ever you'll find us
Loyal and true.
Firm and undaunted
We'll always be,
Here's to the school we love,
Here's a toast to thee.

CLASS OF 1962

CLASS OFFICERS

Seated: Myra Woods, Treasurer; Carol Jewett, Secretary.
Standing: James Freis, Vice President; Bennie Walker, President.

PRESIDENT'S MESSAGE

For three years I have had the privilege of serving you as class president. We have come a long way from the time we began as timid sophomores, struggling through the Orientation Program. During these years we have acquired more than mere scholastic knowledge; we have developed into responsible, confident individuals, ready to take our place as mature citizens in our community.

As we leave N.B.H.S., we carry numerous memories with us, memories of events which have played a great part in our "growing-up." Who can forget our active participation in student government, school activities, and athletic contests? All these experiences have helped to prepare us for our place in society. I feel confident that each of us will take with us the knowledge and skill we have gained in the last three years.

We have been told that never before has our country depended so much upon its young people. It looks to us as hope for the future. We must constitute the "peace corps" in the world, each contributing in his own way. Who knows but that among us may be future lawmakers, presidents, or diplomats. However large or however small may be our assignments, our country needs us.

As your class president, I want to thank each and every one of you for the help and support given me during the three years. In behalf of the entire senior class, I wish to thank our principal, Mr. Lindstrom, our vice principal, Mr. Gordon, and the teachers who through these fruitful years have guided us in order that we may achieve our goals.

CATHARINE ALDERFER

Each year the faculty of New Brunswick High School selects a Senior girl to receive the D.A.R. Good Citizenship Award. The choice is made from a list of students who have been nominated with the following requirements in mind: dependability, service, leadership, and patriotism.

The recipient of the Award represents New Brunswick High School at the D.A.R. State Convention in Trenton. There she meets the Good Citizens from high schools all over New Jersey. With them she is presented to the entire convention and awarded a pin and a certificate. Later the honored girls meet the Governor and tour the historic sights in the capital. At luncheon, where all of the girls are guests of honor, the State Good Citizen selection is announced. The one chosen represents New Jersey in competition for the National Good Citizenship Award.

THE STUDENT COUNCIL

We, the members of New Brunswick High School, in order to provide an opportunity to practice democracy and to encourage all to participate in school government so that they may become better citizens of tomorrow, and in order to regulate and uphold the students' activities and standards, respectively, establish this constitution for the Student Council for New Brunswick High School.

RUTH BROWN

If our faculty and administration provide the intelligence of the organ which we call NBHS, then surely its heartbeat can be located behind a certain green door marked "Student Council." Here, guided always by the principles stated so clearly in the Constitution and by the patient and sympathetic adviser, Mrs. Ruth Brown, the Council administers all student activities from social codes to its little foster child in South Viet Nam. For many years the Council has enjoyed an enviable reputation for leadership in the New Jersey Association of High School Councils and proudly bears the title of an honor school. As anyone who has shouldered even a modest burden of responsibility in council work can testify, the experience provides valuable training, enduring satisfaction, and heart-warming memories.

THE ADVOCATE

The Advocate, the literary magazine of the New Brunswick High School, has been published continuously since 1883.

Each of the three quarterly magazines represents the work of approximately fifty students, from authors and artists to proofreaders, typists, and members of the business staff.

The policy of the Advocate is to consider for publication all material submitted to the magazine directly by the students, or through their teachers. No restriction is placed on the article because of its theme or the class of its author, provided that the material is original. In this way, the Advocate has always succeeded in presenting a wide cross-section of the talents and opinions of N.B.H.S. students.

At the Columbia Scholastic Press Association's annual convention at Columbia University in March, the Advocate was awarded the coveted title of Medalist in competition with many similar magazines from the entire nation. Such a distinction is recognition of the magazine's excellence and high degree of student participation.

After eighty years of uninterrupted publication, the Advocate has become an honored tradition at New Brunswick High School.

Mrs. Frances Johnson has served as faculty adviser to the Advocate for eleven years. During this time the magazine has continued to gain recognition in the field of scholastic publications. This year the Advocate was named Medalist at the Columbia Press Conference. Without Mrs. Johnson's understanding guidance, such an award would not have been possible, and the editorial staff of the Advocate gratefully acknowledges her help.

The Key Club of New Brunswick Senior High School is dedicated to serving its school and community. Patterned after the Kiwanis Club, whose members are leaders in the community, the Key Club consists of boys selected for their outstanding school and civic records. Each member participates in all of the club's activities. New projects are undertaken each year and the boys work diligently and enthusiastically to give service to their school and community and to raise funds to carry on the work of the Key Club.

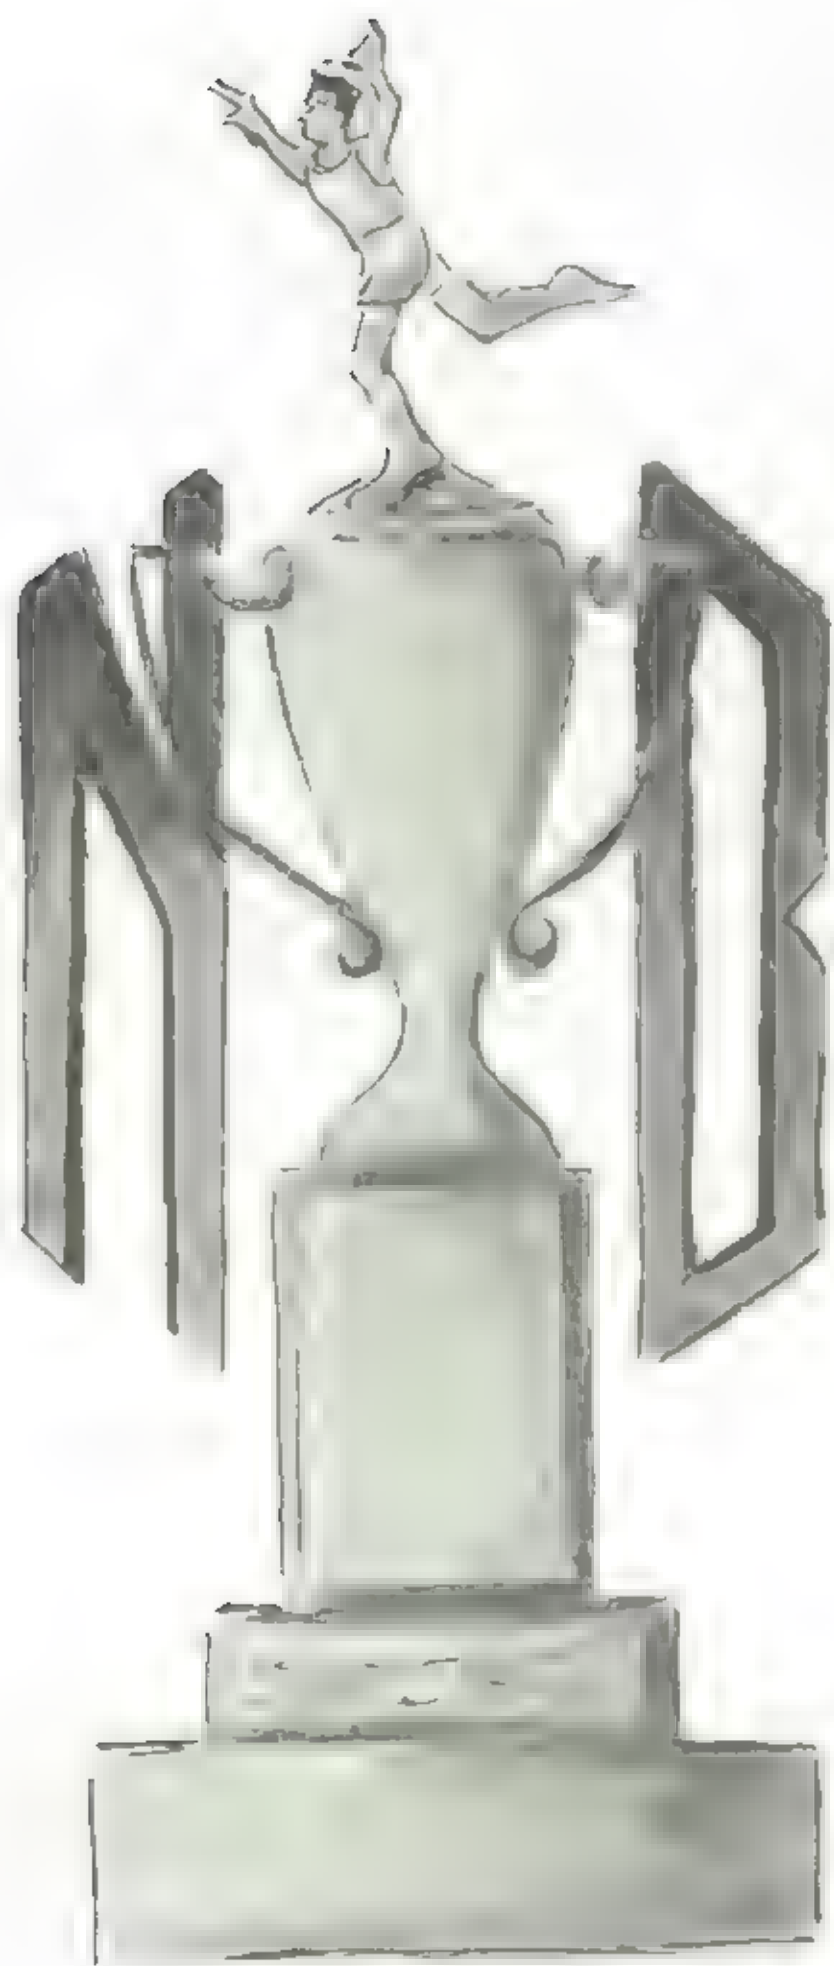

This year the Key Club has done another outstanding job in its effort to create better school and community relations. This year, as in other years, the club has undertaken the job of publishing programs for all home football games. It has also contributed to the school by purchasing a brand new fifty-star flag which is now displayed in front of the high school. The club has also purchased a binding machine, which will help them raise funds as well as help the students of the school to bind various notebooks and reports. It is needless to say that the Key Club has done another outstanding job this year and will no doubt perform in the same manner in years to come.

OUR COACHES

To be a well-rounded high school student, one must not only mature mentally but also physically. Here at N.B.H.S., our athletic program is sufficiently adequate to answer the students' needs. Our teams have supported themselves gallantly, especially in times when a victory seemed hopeless. Through hardships and defeat, our coaches have brought their boys into battle with their spirits high, and with an eagerness to compete.

Every N. B. H. S. student should be proud of his high school's teams and coaching staff. The following quotation puts into poetry the goals of every athlete who has ever competed with a N.B.H.S. varsity team

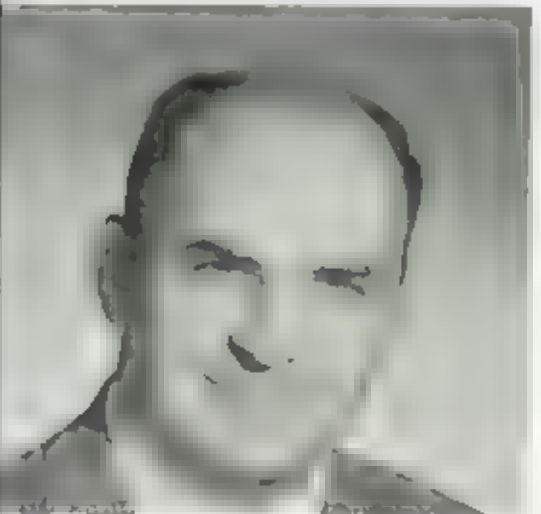

"Who misses or who wins the prize,
Go lose, or conquer, if you can.
But if you fail, or if you rise,
Be each pray God, a gentleman."

Terry?

Lots of luck to a real small
girl, I wish you all the happiness
in your near future years. remember all
the fun we had in school, laughing at a certain
couple who were madly in love, the jokes we told at
the lunch table over Jacks, and at the lockers, the big
confidential secrets we had about people in school etc,
we were really some detectives hehehe. Next year I will really
miss you a great deal, especially at Jacks, but I hope we can
get together with Don, Terry and the girls OK? Again my wishes
are always with you.
